NGO Charity Organization Webpage Development(Sasi) *⊘* Tools: ReactJs, JavaScript

Developed a responsive webpage for a non-profit charity organization to increase online visibility and facilitate donation collection. The webpage served as a platform to showcase the organization's mission, projects, and impact.

PROFESSIONAL EXPERIENCE

Software Engineer, Joshiverse

January 2024 - present | Lagos, Nigeria

Joshiverse

- Developed and implemented a responsive and user-friendly webpage for the NGO organization, streamlining its online presence and enhancing accessibility for stakeholders.
- Utilized ReactJs, JavaScript to design and Vercel to deploy the webpage, ensuring functionality and scalability.
- Taught basic programming skills to children, fostering their interest and understanding of computer science concepts.
- Assisted in setting up and organizing the computer room, ensuring a conducive environment for learning and exploration.
- Demonstrated commitment to the organization's mission and objectives through dedicated volunteer service.

Software Engineering Training Semicolon Africa

September 2020 – October 2023

Lagos, Nigeria

- To ensure optimal performance and reliability of our software system
- Managed continuous integration and deployment to keep our seamless development process smooth and efficient.
- Effectively documented and tested our Apis to ensure scalability and extensibility of our software
- Leverage project management skills in achieving desired outcome within specified timeline
- Performed maintenance and handled technical debt for improving existing web app
- Monitored changes using Git and GitHub, keeping projects organized and teamwork seamless.
- Worked on both front-end and back-end development, using ReactJs, React Native and NodeJs, building modern web applications.
- Enhanced user experiences by adding innovative features that made users happier.

Maintainance Manager Sacvin Ng

February 2021 - August 2022

Lagos, Nigeria

• Leverage industry knowledge and business acumen to identify control deficiencies within maintenance and operational processes, ensuring adherence to internal control standards.

- Communicate identified deficiencies in internal control to relevant stakeholders, providing clear and concise recommendations for improvement and ensuring the implementation of corrective measures.
- Ensure maintenance and operational activities are conducted in accordance with applicable standards, legal requirements, and established procedures, guaranteeing the efficiency and effectiveness of operations.

Store Manager Sacvin Ng
